

ANESPA DX

MINERAL ION WATER

THE TRUTH ABOUT TAP WATER

Many of us don't realize that the skin is the body's largest organ. Our skin quickly absorbs pollutants and harmful contaminants from the air, water, and environment around us, which quickly enter our bloodstream.

Your body absorbs more toxins from showering with tap water than from drinking it! During the course of one 10 minute shower, you absorb more chlorine than you would when drinking eight glasses of tap water. Your skin absorbs hundreds of chemicals from your shower every single day, and according to studies, this puts us at high health risks.

Chlorine in tap water is a health hazard to both children and adults, and it has been found that **the risk of developing cancer is 93% higher in people who drink or are otherwise exposed to chlorinated water!**

Chlorine not only enters the body through the skin but also through the lungs! When we take hot or steamy showers with chlorinated tap water, we inhale gases into our lungs. Research shows that **we absorb up to six times more volatile chemicals through our lungs and skin while bathing than we do from drinking chlorinated water.**

The water vapor contains chlorine and other disinfection byproducts like trihalomethane. **Studies suggest that several types of trihalomethane may cause cancer.**

THE LONG TERM SOLUTION ANESPA DX

Enagic's Anespa DX shower filtration and re-mineralization system ensures that your skin and hair stay healthy, clean, and hydrated by filtering out chlorine and other harmful substances and adding back in the minerals you truly need.

*YOU CAN EXPECT EACH SHOWER AND BATH
TO FEEL LIKE A LUXURIOUS SPA
EXPERIENCE IN YOUR OWN HOME!*

ANESPA'S SPECIAL FEATURES

The Anespa Dx has three unique features that will completely transform your ordinary tap water into a clean, activated, antioxidant thermal water

TOURMALINE-IMPREGNATED ACTIVATED CARBON FILTER

First, the water passes through a water purification cartridge made of tourmaline-impregnated activated carbon fiber. The characteristic of tourmaline is to **activate the water** by using surface-active and negative-ion effects. The activated carbon fiber **removes all impurities and organic compounds like chlorine, trihalomethane, fungus, and dust.**

NEODYMIUM MAGNET

Then the clean water passes through a Neodymium magnet, a high-quality magnet able to decompose big water molecule clusters into much smaller ones, thus changing your tap water into **structured water**. **This restructuring of water clusters helps you better absorb minerals through your skin.**

CERAMIC CARTRIDGE

Finally, your clean, activated, and structured water passes through the last cartridge: the **ceramic cartridge**, filled with ceramic balls of Futamata Radium Hot Spring and Chikutan.

CERAMIC CARTRIDGE

With three exceptional stones, this cartridge transforms your tap water into soothing and revitalizing water for your body.

TUFA

A mineral stone taken directly from the Futamata Radium Hot Spring in Hokkaido, Japan. This stone gives the water the same gentle and **relaxing hot spring effect**.

MIC STONE

Generates activated mildly **alkaline** water, which is good for your skin.

POWER STONE

Generates strong negative ions (**antioxidants**).

MINERAL ION WATER

**THE WATER
FROM THE
ANESPA IS ALSO
KNOWN AS
MINERAL ION
WATER, WHICH
IS KNOWN FOR
IT BENEFITS:**

- Boost blood circulation
- Boost immune system Increase metabolism
- Reduce stress
- Promote sleep
- Help with skin problems

This shower unit is the only one of its kind in the world!

Water filtered by the Anespa DX machine will leave your hair, skin, and body looking and feeling more hydrated than ever before.
